

March 28, 1984

LR 1

difficulty in defining deficiencies and I don't have all that here in front of me but I don't recall the section number but a deficiency is now defined by statute very clearly and at that time there was a lot of effort made in it. I know, I'm sure we...there may be an Attorney General's Opinion but in essence any change in existing appropriation as we do this year for '83-84 is defined as a deficiency even though it doesn't change the money. If you just move money from one program to another within an agency by definition that is the deficiency.

SPEAKER NICHOL: One minute.

SENATOR BEUTLER: Let me ask you one additional question if I may, Senator Warner. Assuming that the definition of deficiency is as you say, if you make a change then in the even numbered year, is that change then going to require the two-thirds vote stated in the Constitution?

SENATOR WARNER: That is right, just as it does now and it requires a two-thirds vote as you know to get the emergency clause which we have to have even as we do now. So there is nothing affected by that, Senator Beutler, as a practical matter.

SENATOR BEUTLER: Okay, thank you. Thank you, Mr. Speaker.

SPEAKER NICHOL: Senator Kilgarin.

SENATOR KILGARIN: Thank you, Mr. President, colleagues, I will be supporting the kill motion. With all due respect to Senator Warner, and that would dictate a great deal of respect, I don't feel that this constitutional amendment has been researched thoroughly by this body. I think an interim study needs to be done. We are making major changes in the Constitution by this, major changes in the way the Legislature operates. One of the main concerns of this Legislature is the budget. One of the main concerns is appropriations for state aid and for state operations. It is very difficult to assess those needs as I think any member of the Appropriations Committee will tell you or any member of this legislative body will tell you even for one
